The combination of the Martian polar inclination, the precessional cycle, and the eccentricity of the orbit produces seasons that are about twelve thousand years long. We're in the middle of winter, though we landed in the nominal 'summer/ It's been theorized that if there were any Martian life it would have adapted to these longer cycles. It hibernates in spores during the cold cycle, when the water and carbon dioxide freeze out at the poles, then comes out when enough ice melts to permit biological processes. We seem to have fooled these plants; they thought summer was here when the water vapor content went up around the camp." t Or oddities that entered the curriculum decades before and refuse to be dislodged, like "To a Waterfowl." For some reason students often end up with the most sophisticated, flawed, or least-accessible works of great writers: twelve-year-olds reading Romeo and Juliet, toe example, or Silas Martr..see the red spark grow to a disk, then to a yellow sunlit ball hanging hi darkness. We spread out all over. North and south and east and west. I went south. Right now, I've got a flunky's job in a granary. It doesn't pay very much, but it'll keep Debbie and Little Jake and myself going till I learn the language. Once I learn the language, I'll get back in Construction. There's a big project about to begin just east of here. From what I gather, it's a tomb of some kind, and it's supposed to set a new trend. We stay right here until it goes off. The hell with the damage. And shut that door, quick!".Not long afterward I left. I didn't want to be hung-over on my first spell of picket duty. It was a cool night, and the stars were thick in the sky. I caught glimpses of the Project as I made my way home through the narrow streets. It dominates the whole city. The whole Plain, for that matter. It had sort of a pale, blurred look in the starlight, the six completed stages blending together, the uncompleted seventh one softly serrated against the night sky. Working on it every day, I've kind of forgot how high it is, how much higher it's going to be when we get back on the job. The highest thing ever, they say. I won't dispute that. It makes a palm tree look like a blade of grass and a man look like an ant. Looking at it tonight, I felt proud to be one of the builders. It was as though I'd built the whole thing myself. That's the way a bricklayer feels sometimes. It's really great I feel sorry for brickmakers. You'd never catch me slogging all day in a mud hole..and the ship is gone.
