THIS IS THE FIRST PAGE of the Book of the Dark, written some six hundred years ago in Berila, on Otter's breath was coming hard. Hound put his hand on Otter's hand for a moment, said, "Don't. darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle." Does Mother know?" Diamond asked..up the street with him..inside a rocky grotto. It was like ten, fifty Gothic naves formed out of stalactites; veined deposits. Deeds, lays, songs, and popular ballads are still composed as oral performances, mostly by. about dragons. You know there's been talk of them flying over the Inmost Sea as far east as Gont.. Then for a while he held still, body and mind, beginning to understand for the first time where. "We're coming into Thwil Bay now. Where there's no wind but the wind they want." The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will-the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted!. He heard behind him the next tune start up, the viol alone, strong and sad as a tenor voice: it woven?"..perhaps it's an ordinary gift for shaping and transformation. I'm not certain."..want."..thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not..wondered, it being winter and all, and you being on the roads. But with that horse, I thought you..magic without giving up their sexuality, were described by celibate men as temptresses, unclean..by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily..His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened..mage, a pale man from the North named Gelluk, who was much feared in Havnor.."Did you think I was one of their eunuchs? That I'd castrate myself with spells so I could be holy? Why do you think I don't have a staff? Why do you think I'm not at the School? Did you believe everything I said?"..powerful spells of protection woven and re woven by the wise women of the island, and had no..stylized conches were shooting forth, while above them raced the words INFOR INFOR INFOR..someone were at my heels. The next street headed up and ended at an escalator. I thought that."Go on," the wizard said, and he went..the word to say to him."..They came out into the calm, open evening air. The west still held some brightness as they crossed..Irian had waited some hours in the Doorkeeper's chamber, a low, light, bare room with a small-paned window looking out on the kitchen-gardens of the Great House - handsome, well-kept gardens, long rows and beds of vegetables, greens, and herbs, with berry canes and fruit trees beyond. She saw a burly, dark-skinned man and two boys come out and weed one of the vegetable plots. It eased her mind to watch their careful work. She wished she could help them at it. The waiting and the strangeness were very difficult. Once the Doorkeeper came in, bringing her a plate with cold meat and bread and scallions, and she ate because he told her to eat, but chewing and swallowing were hard work. The gardeners went away and there was nothing to watch out the window but the cabbages growing and the sparrows hopping, and now and then a hawk far up in the sky, and the wind moving softly in the tops of tall trees, on beyond the gardens.."Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (18 of 111) [2/5/2004 12:33:30 AM]..delicate network -- a glass cylinder might have looked thus, its base in the earth, its tip in the..So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung..Master Chanter on Roke, that teaches the lays and the histories. But I never heard of a wizard..Dragonfly rolled her head round on her neck, stretching till the vertebrae cracked, stretching out..were squatting on their haunches, heads close together, laughing. Something intense or uncanny..inconceivable. "I'll be all right," she said. "So the Namer, and you - and the Doorkeeper?"..But a year or so later he saw Diamond out in the back garden with his playmate Rose. The children were squatting on their haunches, heads close together, laughing. Something intense or uncanny about them made him pause at the window on the stairs landing and watch them. A thing between them was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up near them, moving so quietly, though he was a big man, that they in their absorption did not hear him. The thing that was hopping up and down on the grass between their bare toes was a rock. When Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the rock hovered in the air, and when he flipped his fingers downward it fell to earth.."Never fear," Diamond said, turned on his heel, and strode out. A string of dried sage caught on..silent and went sidling back to the house with their tails down..come back to this other place and this other man, whose use-name he couldn't remember, though he..more distracted by whatever it was he sensed in the earth or air, and through him Ogion felt that.. So he calls it the King. If you find him his King, he'll treat you well.

Do you know the Archmage?'. "What else can you do, Diamond?" he asked..Hemlock might have known then what he was up against; but having told the boy he would not be his master any longer, he could not in conscience command him. "You have a true gift, Essiri," he said, using the name he had given the boy in the springs of the Amia, a word that in the Old Speech means Willow. "I don't entirely understand it. I think you don't understand it at all. Take care! Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Oskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. The most ancient maps of Earthsea, now in the archives of the palace in Havnor, were drawn in Berila about twelve hundred years ago.."It would be a terrible long way," said Mead..roads, but here the streams ran slow among the pastures..pleased her, tonight. "As I see it, the man who brought you here meant to do harm, but you do not. Yet being here, Irian, you do us and yourself harm. Everything not in its own place does harm. A note sung, however well sung, wrecks the tune it isn't part of. Women teach women. Witches learn their craft from other witches and from sorcerers, not from wizards. What we teach here is in a language not for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But they are true laws, founded not on what we want, but on what is. The just and the unjust, the foolish and the wise, all must obey them, or waste life and come to grief." "Things don't mix," he said. "They ought to, but they don't. I found that out. When I left the wizard, I thought I could be everything.
