"Look, we are here."Left to himself he couldn't stop thinking about the staple he'd seen on her license. It was like the."I stole it from my worse and worst enemy."."You've heard of the long-period Martian seasonal theories? Well, part of it is more than a theory. The combination of the Martian polar inclination, the precessional cycle, and the eccentricity of the orbit produces seasons that are about twelve thousand years long. We're in the middle of winter, though we landed in the nominal 'summer/ It's been theorized that if there were any Martian life it would have adapted to these longer cycles. It hibernates in spores during the cold cycle, when the water and carbon dioxide freeze out at the poles, then comes out when enough ice melts to permit biological processes. We seem to have fooled these plants; they thought summer was here when the water vapor content went up around the camp."."I have an idea on that," McKillian said. T've had it in mind to do some studies around the dome to.I wait for the concert.Nolan turned and glanced at the girl who lay beside him. She stared up through the shadows with."In his room, I think. That was as far as Lang would permit anyone to go.The first Ozo was smuggled into the Soviet Union from West Germany by Katerina Belov, a member of a dissident group in Moscow, who used it to document illegal government actions. The device was seized on December 13 by the KGB; Belov and two other members of die group were arrested, imprisoned and tortured. But likewise, Crawford could see no reason why it should have happened.and it was thought it could be put to use one last time before we let it go, to warm the floor of the dome.V.looked up at them from below the surface..She considered the accusation. "I wouldn't choose her for a friend. I think she's insipid and gutless.."This is no game."The next morning, Tuesday, the 3rd, I called Miss Tremaine and told her Fd be late getting in but would check in every couple of hours to find out if the slinky blonde looking for her kid sister had shown up. She humphed..It is all a joke, isn't it?.She grinned. "You've got a cute rear end. Almost as cute as Hurt Reynolds'. Maybe he's twins."..It was painful to leave the mystery for later, but there was nothing to be done about it. They could not bring themselves to uproot the thing, even when five more like it sprouted in the graveyard. There was a new consensus among them to leave the Martian plants and animals alone. Like nervous atheists, most of them didn't believe Song's theories but had an uneasy feeling of trespassing when they went through the gardens. They felt subconsciously that it might be better to leave them alone in case they turned out to be private property..There was a silence, then it was ripped apart by Lang\*s huge."Maurice?next door." He inclined his head slightly toward 407.."No!" Her vehemence startled me. She quickly lowered her voice and went on: "My friends call me Amanda,".recognized the name? He was huddled on his back with his elbows propped up by the wall and the bed. His throat had been cut. The blood hadn't spread very far. Most of it had been soaked up by the threadbare carpet under the bed. I looked around the grubby little room but didn't find anything. There were no signs of a struggle, no signs of forced entry?but then, my BankAmericard hadn't left any signs either. The window was open, letting in the muffled roar of traffic on the Boulevard. I stuck my head out and looked, but it was three stories straight down to the neon-lit marquee of the movie house..Samuel R. Delaity."Yes?" She had a breathless voice. Her eyes quickly traveled the length of my body. That happened.He watched the disaster unfold before his eyes, silent except for the rhythmic beat of the alarm bell in his ears. The dome was dancing and straining, trying to fly. The floor heaved up in the center, throwing the black woman to her knees. In another second the ulterior was a whirling snowstorm. He skidded on the sand and fell for-."Do you have a vacancy?" I asked, getting a whiz-bang idea..could scrounge. It would be useful later for heating, and for recharging batteries. They managed to convert plastic packing crates into fuel containers by lining them with sheets of the double-walled material the whirligigs used to heat water. They were nervous at this vandalism, but had no other choice. They kept looking nervously at the graveyard as they ripped up meter-square sheets of it..softly, NO VACANCY.."Commander Lang?"."He's in the glen."..was one leg poking over the edge of the bed. If both are fertilized, two children will be bom who are each possessed of genetic equipment different from the other. What results are "fraternal twins" who need not be of the same sex and who need not resemble each other any more than siblings usually do..Morris has been creating Zorphwar, an exciting game that operates on our system..At the edge of the garden he stopped, remembering the order from Lang to stay

out unless collecting samples. He watched the thing-bug? turtle??for a moment, satisfied himself that it wouldn't get too far away at its creeping pace, and hurried off to find Song..At least a thousand hired kids are there setting up chairs in the arena this morning, but it's still hard to feel I'm not alone. The dome is that big. Voices get lost here. Even thoughts echo.."I do know enough to know the Edgar is not equipped for an atmosphere entry. My idea was, not to."Look at it this way, Matt. "I guess so, but, please, come when you can.".."Why is that?"..259.."Ah," said Jack, "the second question is easy to answer, but the first is not so simple. I am a prisoner here because a skinny grey man stole a map from me and put me in the brig so I could not get it back from him. But why am I the Prince of the Far Rainbow? That is exactly the question asked me a year ago today by a wizard so great and so old and so terrible that you and I need never worry about him. I answered him, 'I am Prince because my father is King, and everyone knows I should be.' Then the wizard asked me, 'Why should you be Prince and not one of a dozen others? Are you fit to rule, can you judge fairly, can you resist temptation?' I had no idea what he meant, and again I answered, 'I am Prince because my father is King.' The wizard took a mirror and held it before me. 'What do you see?' he asked. 'I see myself, just as I should, the Prince of the Far Rainbow,' said I. Then the wizard grew furious and struck the mirror into three pieces and cried, 'Not until you look into this mirror whole again will you be Prince of the Far Rainbow, for a woman worthy of a prince is trapped behind the glass, and not till she is free can you rule in your own land.' There was an explosion, and when I woke up, I was without my crown, lying dressed as you see me now in a green meadow. In my pocket was a map that told me where all the pieces were hidden. Only it did not show me how to get back to the Far Rainbow. And still I do not know how to get home."..reclined heavily on her mattress..223..who wouldn't dream of challenging a dance critic's comments on an assoluta's line or a prima donna's..blue.."Not once you understand what this graveyard is and why it became what it did," Song said. He was off the hook..wrapping them from head to toe in strips of webbing like human maypoles.."Uh. . .Barry."..sort of place? It's a tourist trap!"..On a day exactly eight months after the disaster, two discoveries were made. One was in the whirligig garden and concerned a new plant that was bearing what might be fruit. They were clusters of grape-sized white balls, very hard and fairly heavy. The second discovery was made by Lucy McKillian and concerned the absence of an event that up to that time had been as regular as the full moon..Neither of them bothered to answer that. It threw them together a lot. The other three had to be free to pursue their researches, as it had been decided that only in knowing their environment would they stand a chance.."What's wrong?" I asked, walking in..the dim past..).Song had taken one apart as well as she could. She was still shaking her head in disbelief. "I've got to get back for the loading. I can't stay here that long!"..felt it sway lots of tunes, and I was no stranger to the wind..They built a separate shelter inside the dome, not really talking aloud about what it was for. But it did not lack for use. Productive work suffered as the five of them frantically ran through all the possible permutations of three women and two men. Animosities

developed, flourished for a few hours, and dissolved in tearful reconciliations. Three ganged up on two, two on one, one declared war on all the other four. Ralston and Song announced an engagement, which lasted ten hours. Crawford nearly came to blows with Lang, aided by McKillian. McKillian renounced men forever and had a brief, tempestuous affair with Song. Then Song discovered McKillian with Ralston, and Crawford caught her on the rebound, only to be thrown over for Ralston. He began to protest. She stopped him with just one omniscient and devastating glance. He nodded. Dee shook his head. "I don't know." "Well. . . not for a long time."
