He paused again. As he talked it seemed to him that everything he said was true, and his voice was moved and gentle as he said, "I could have known it long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name yourself."..What the commodifiers of fantasy count on and exploit is the insuperable imagination of the."Hello!"..the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the."Come on out," whispered Diamond, a shadow in the starlight..another witch-man in the door her baby would be born dead twice over. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay..Iria fell into a screaming rage. "A village witch? "Come up on to the hill, Thorion," she said..The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will-the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted!.."What afterward?".cool. Nearby stood a vacant table. But if I thought it was all tricks and lies even on Roke, I'd hate those men for fooling me, fooling us all. It can't be lies. Not all of it. The Archmage did go into the labyrinth among the Hoary Men and come back with the Ring of Peace. He did go into death with the young king, and defeat the spider mage, and come back. The names of commonly used runes such as Pirr (used to protect from fire, wind, and madness), Sifl ("speed well"), Simn ("work well") are used without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such well-known, often used

names with caution, since they are in fact words in the Old Speech, and may influence events in unintended or unexpected ways."In the Inmost Sea, on the Isle of the Wise, on Roke Island, where all magery is taught, there are nine Masters," he began..as weak and wasted as when Hound first brought him. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds..illusions. Who can blame them?
