She stirred in my arms. I felt a ripple of tension in her body. She lifted her head and kissed me hard. I grabbed her shoulders and held her off at arm's length to look at her..our faces. The door swings open. The door swings open. The door swings open forever before we finally."You've heard of the long-period Martian seasonal theories? Well, part of it is more than a theory. The combination of the Martian polar inclination, the precessional cycle, and the eccentricity of the orbit produces seasons that are about twelve thousand years long. We're in the middle of winter, though we landed in the nominal 'summer/ It's been theorized that if there were any Martian life it would have adapted to these longer cycles. It hibernates in spores during the cold cycle, when the water and carbon dioxide freeze out at the poles, then comes out when enough ice melts to permit biological processes. We seem to have fooled these plants; they thought summer was here when the water vapor content went up around the camp."..back to the prince's side and wheeled the barrow to the middle of the room.."A wizard so great and old and so terrible that you and I need never worry about him."..sounded anxious. When our starting book reviewer, Algis Budrys, tires, our favorite relief reviewer is Ms. Russ. Here she offers a fascinating article (in response to some critical letters) which tells why critics are such snobs and are so vitriolic, among many other things.."We can't say how long they've been prepared for a visit from us. Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in The Issue at Hand. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S. Lewis or J. R. R. Tolkien, about whom the most generous consensus of mainstream critical opinion is that they are good, interesting, minor authors. And so on.."Mary, I wanted. . . is it all right if I call you Mary?".The Podkayne was barely visible behind a network of multicolored vines. Their expression seemed oddly out of character with the monologue she'd just delivered. They were piercing (as against vulnerable) steely-gray eyes that stared defiance from a face all sags and wrinkles. Without the contradiction of such eyes, her face would have seemed ruined and hopeless; with them, she looked just like an ancient centurion in a movie about the Roman Empire..Q: When did you get that awful sunburn?.their children protection from the cold and the thin air for so long.
