He held the bottle out to her. "Have a drink?" "I hope me be gone before then. I'm just on holiday until I decide what to do with my life." 43. Naturally, the ordinary "somatic cells" of an adult human body, with their genetic equipment working only in highly specialized ways, cannot divide into a whole organism if left to themselves. Many body cells, such as those of the muscles or nerves, have become so specialized they can't divide at all. Only the sex cells, eggs and sperm, retain the lack of genetic specialization required to produce a new organism under the proper circumstances..through what had to be every shop in Gateside before Amanda found a gift she thought worthy of her. her to the cottage door.
