His hand found her arm in the darkness and squeezed briefly but reassuringly. "It'll be okay," he murmured. What could be crazier than the Army?"..At the front of the vehicle, the door opens, and the first things through it are the excited voices of a man."A scandalous exhibition!" he declared as he sliced a portion of melon cultivated in the Kansas module and added it to the fruits on the plate by his aperitif on the table before him. "Nobodies and Cretins, all of them. Not one of them had any representative powers worth speaking of. Yet ifs clear that a governing organization of some kind must exist, though God knows what kind of people it's made up of, judging from the state the town's in a total shambles. The only conclusion can be that they've gone to ground and won't come out, and the population as a whole is abetting them. I think John's right--if they're as good as inviting us to take over, we should do so and be done with it."."So your stepfather's a murderer."..Stroking the mutt's head, rubbing behind one of the floppy ears and then behind the other, the frightened."Hanlon wants me at the gate for something," Colman said. I can get where I want to go, no matter how hard it is."..Enjoying the girl's perplexity, Micky shrugged. Well, this time she's wrong..The atmosphere became more serious as Bernard and Lechat informed the Chironians that they now knew what the Kuan-yin was and what it could do. "We appreciate that you had to assume that the ship from Earth would be heavily armed and that it might have adopted an overtly hostile policy from the beginning," Lechat said, pacing about the room. "But that hasn't happened, and there are still a lot of people up there who are not a threat to anyone. The handful who are in control now are not representative, and their remaining support will surely erode before much longer. I'm anxious for whoever controls that weapon of yours to be aware of the facts of the situation. There can be no justification now for a tragedy that could have been avoided."..Micky didn't press for further details. They're selected and trained to obey orders and not ask questions. Some of them would shoot their own mothers if the right person said so. And Stormbel was in on it. It fits." He thought for a second longer, and then looked at Lechat and Bernard. "There were a lot of suspicious things about Padawski breaking out too. It couldn't have happened the way it did without inside help. A lot of us have been thinking it was a setup to bait the Chironians into hitting back."..From the corner of her eye, Micky was aware that the girl had stopped working and had turned to face.canopy and angles toward the buildings, downshifting with a hack and grind of protesting gear teeth..If the Bureau knows what those two cowboys are up to, and if it understands how many others are.that sooner or later will draw his pursuers..Perhaps the girl was genuinely astonished by the concept of Preston Maddoc as a child molester. Hanlon said admiringly..A Tenure of Landholdings Act was passed, declaring that all property rights were transferred to the civil administration and that legally recognized deeds of title for existing and prospective holdings could be purchased at market rates for Terrans and in exchange for nominal fees for officially registered Chironian residents, a concession which was felt essential for palatability. Employment by Terran enterprises would enable the Chironians to earn the currency to pay for the deeds to their homes that the government now said it owned and was willing to sell back to them, but they had grounds for gratitude-it was said- in being exempt from paying the prices that newly arrived Terrans would have to raise mortgages to meet. At the same time, under an Aliens Admissions Act, Chironians from outside would be allowed entry to Phoenix only upon acquiring visas restricting their commercial activities to paying jobs or approved currency-based transactions, for which permits would be issued, or for noncommercial social purposes. Thus the Chironians living in or entering Phoenix would cease, in effect, to be Chironians, and the problem would be solved..Veronica nodded her head quickly a couple of times. "She's not hurt or anything like that, but she's in a lot, of trouble. She's gotten herself mixed up with Sterm, and she can't make a move without being watched. She could be in real danger, Steve. She has to get away from there."..It's impregnable, Colman thought to himself as he lay prone behind a girder mounting high up in the shadows at the back of the antechamber and studied the approaches to the lock. The observation ports overlooking the-area from above and to the sides could command the whole place -with overlapping fields of fire, and no doubt there were automatic or remote-operated defenses that were invisible. True, there was plenty of cover for the first stages of an assault, but the final rush -would be suicidal - and probably futile since the lock doors looked strong enough to stop anything short - of a tactical missile. And he was beginning to doubt if the demolition squad suiting up to go outside farther back in the Hexagon would be able to do much good since the external approaches to the module would almost certainly be covered just as effectively; he knew how the minds that designed things like this worked~.Ci repeated the performance. Fortunately, this blunder will not be the death of him..He stopped for a moment to stare out through the window while he collected his thoughts. Then he wheeled back to look first at Jean and then at Bernard, who was listening from the

sofa below the wall screen. "Anyway I know a lot of people think the way Jean does, but we could still get anti-Chironian reactions from many elements. That's what worries me. But if we set up a liberal civil administration here now, while the opportunity presents itself, I think there's a good chance that Wellesley might accept it as a fait accompli, even if he does declare an emergency, and go along with us when he recognizes the inevitable- which I suspect he might be beginning to do already. That would give everybody a new tomorrow to wake up to, and they'd soon forget this whole business. But there isn't much time. That's why I skipped the meeting. Now you two can help, pretty much in the ways we've discussed. What I'd like you to do first is-" The call tone from Lechat's compad interrupted. He looked down instinctively at the breast pocket of his jacket. "Excuse me for a moment." Paula was looking at him impishly. "Do you think you could beat mine?" she asked in a curious voice. To Leilani, Micky said, "So I guess we're not twelve percenters, after all. We have lots of opinions, and a currency was introduced and declared the only recognized form of tender. All goods brought into Phoenix were subjected to a customs tariff equal to the difference between their purchase cost and the prevailing price of Terran equivalents plus an import surcharge, which meant that what anybody saved in Franklin they paid to the government on the way home. Terran manufacturers thus lost the advantage of free Chironian materials but gained a captive market, which they needed desperately since their wares hadn't been selling well; and the market could be expected to grow substantially when the whole of Franklin came to be annexed, which required no great perspicacity to see had to be not very much further down Kalens's list of things to bring about. The Terran contractors and professionals were less fortunate and raised a howl of protest as Chironians continued cheerfully to fix showers, teach classes, and polish teeth for nothing, and an additional bill had to be rushed through making it illegal for anyone to give his services away. In response to this absurdity the skeptical Terran public became cynical and proceeded to deluge the courts, already brought to their knees by Chironians queuing up in grinning lines of hundreds to be arrested, with a flood of lawsuits against anyone who gave anyone a helping hand with anything, and a group of lawyers' wives staged their own protest by drawing up a list of fees for conjugal favors..wish that thou were as well made as she." As a temporary barracks for the military force based on the surface, the Chironians had made available a recently completed complex of buildings designed as a school, which was intended for occupation later as Canaveral City expanded. It comprised a main administrative and social block, which the Army was using mainly for administrative and social purposes; an assortment of teaching and residential blocks, most of which were being used for billeting the troops, with part of one serving as a Detention Wing; a gymnasium and sports center which had become the stores, armory, and motor pool; and a communal dining hall which was left unaltered..After stripping down to panties and a tank top, she sat in bed, atop the sheets, sipping cold lemon vodka. girl mean bidness!". sister-becoming and her devoted brother racing north through the desert darkness, into darkness deeper. most likely bring him to the same hard death..impressive tone-on-tone design, although the contrast became more pronounced when she tanned.. Jay shrugged again. "Protection, maybe.". "Really?" Sterm's one word conveyed all the disbelief necessary; its undertone suggested that she reconsider whether she believed her answer either, "Come now, Celia, the realities of life are no strangers to either of us. We can be frank without fear of risking offense. The people live theft lives and serve their purpose, and a few more or less will make no difference that matters. He spoke matter-of-factly, making no attempt to hide his presumption that the contract thus symbolized was already decided.. "Bad enough," he admitted.. "It is, but nothing in there's to be touched until Mrs. Kalens has been back to get some stuff," the guard answered. "She should be on her way down just about now.". "Our orders are to precede the Ambassador's party through the docking lock to form an honorary guard in the forward antechamber of the Kuan-yin, where the formalities will take place," Sirocco read aloud to the D Company personnel assigned as escorts at the

briefing held early that morning. "Punctilious attention to discipline and order will prevail at all times, and the personnel taking part will be made mindful of the importance of maintaining a decorum appropriate to 'the dignity of a unique historic occasion.' That means no ventriloquized comments to relieve the boredom, Swyley, and the best parade ground turnout you ever managed, all of you. 'Since provocative actions on the part of the Chironians are considered improbable, number-one ceremonial uniforms will be Worn, with weapons carried loaded for precautionary purposes only. As a contingency against emergencies, a reserve of Special Duty troopers at full combat readiness will remain in the shuttle and subject to such orders as the senior general accompanying the boarding party should see fit to issue at his discretion.'" whenever he was admitted. Bret Hanion, the sergeant in charge of Second Platoon and a long-standing buddy of Colman, was sitting on the other side of Sirocco with Stanislaw, Third Platoon's laser gunner, and a couple of civilian girls; a signals specialist called Anita, attached to Brigade H.Q. was snuggling close to Colman ~with her arm draped loosely through his..two-beer check..Supposing he had glimpsed two men wearing cowboy hats, he still couldn't have been sure that they..dissolved into weeping?not the genteel tears of a melancholy maiden, but wretched racking sobs..By the time the flyer touched down at the front of the house, Celia's earlier nervousness had given way to a stoic resignation to the fact that she was now committed. She had gambled that Sterm would accept her desire to return to her home as normal feminine behavior and that because he believed her to be helpless and without anyone else to run to anyway, the thought of her trying to escape would not enter his mind seriously. That - was just how it had worked out; her three SD guards and a matron had orders to keep her under observation and from talking to anybody, but she was not considered to be a prisoner.
