

LITERATURNACHWEIS UBER GELD UND MUNZWESEN

"Nothing of the kind." Agnes smiled at Barty and wiggled her finger in his grip. "They've always been my salvation. I don't know what I'd do without them." "Mommy, watch!" He turned in the deluge with his arms held out from his sides. "Not scary!". WHEN A GLASS OF chilled apple juice at dawn stayed on his stomach, Junior Cain was allowed a second glass, though he was admonished He was also given three saltines.. "I'd give anything if it hadn't happened," he said earnestly. And now a tortured note wrung wet emotion from his voice "I only wish it had been me who died." "I wasn't drinking," he said. "That's proven. But I admit being reckless, driving too fast in the rain. They cited me for that, for running the light." First room on the left. Move. Kick the door open. The sense of a larger space beyond, no bathroom this time, and darker. Fan the pistol, gripping with both hands. Two quick shots: muffled cough, muffled cough.. He never passed through a phase during which he grew resistant to hugging or kissing. He was a hand-holding, cuddling boy to whom displays of affection came easily.. "That discord sets up lots of other vibrations, some of which will return to you in ways you might expect-and some in ways you could never see coming. Of the things you couldn't have seen coming, I'm the worst." After a few racing steps, when the dog realized that Mary hadn't thrown the ball, it whipped around and sprinted back.. The voice continued, issuing from a device that stood on the desk beside the phone. "Please don't bang up. This is a telephone answering machine Leave a message after you hear the tone, and I will return your call later ". almost recoiled in disgust. She held the newborn so that its mother could look into. If he hadn't been such a rational, stable, no-nonsense person all of his life, Junior might have thought he was losing his mind.. Celestina dropped to one knee in front of Angel, to tie the drawstrings of the hood under the girl's chin.. He'd never had a chance to read this to Perri or to benefit from her opinion. Now, as he scanned the lines of his calligraphic handwriting, his words seemed foolish, inappropriate, confused.. The opening paragraph still lingered in his memory, because he had crafted it with great care: Greetings on this momentous day. I'm writing to you about an exceptional woman, Agnes Lampion, whose life you have touched without knowing, and whose story may interest you.. "So I drew attention to myself. Raised suspicions. One night, in St. Louis, this rube recognized me from my performing days, even though I'd changed my looks. It was a high-stakes game, but the players weren't high-class. They ganged up on me, beat me, and then smashed my hands, one finger at a time, with a tire iron." "I think we could wind up as crazy as he is, if we tried long enough to puzzle out his twisted logic." By this time, Vinton had finished, commercials had run, and the number-two song had started: "Come See About Me," by the Supremes.. "I should," Tom agreed, "but the point is this. . ." With the finesse of a magician, he allowed the salt shaker to slip out of the concealment of his palm, and stood it beside the pepper. "This is also me." "When you called earlier in the year, to ask for a referral to a private investigator down there, the woman had recently turned up dead and Vanadium was gone, but no one put the two together at first." This bond between the Lampion and White families, which Grace had already heard about from Paul, came as news to Celestina as much as to Agnes. It inspired more reminiscences of lost husbands and the wistful wish that Joey and Harrison could have met.. Earlier, before leaving home, he had taken a preventive dose of paregoric. For now, at least, his bowels were quiet.. By Thursday, September 23, due to Junior's accident and surgery, the draft board-which had reinstated his I -A status after he'd lost the exemption that had come with his former job as a rehabilitation therapist-agreed to schedule a new physical examination in December.. Tom pointed to the nearly finished martini that stood on the table before him. Balanced on the thin rim of the glass: impossibly, precariously--the coin.. Apparently Maria wished that she'd brought a rosary to dinner. With the fingers of her right hand, she pinched the knuckles of her left, one after the other, as if they were beads.. A sense of fellowship in extraordinary times drew everyone closer, to hug, to touch, to share the wonder. For a long moment, even in the symphony of the storm, in spite of all the plink-tink-hiss-plop-rattle that arose from every rain-beaten work of man and nature, they seemed to stand here in a hush as deep as Tom had ever heard.. you greater strength and determination than any other motive. But you should know this much.... You need to keep her safe for another reason. She's special. I don't want to explain why she's special or how I know that she is, because this isn't the time or place, not with your dad's death and Wally in the hospital and you still shaky from the attack." Vanadium was dead. Pounded with pewter and sunk in a flooded quarry. Gone forever.. Otter was reluctant to answer. He had to like Hound, but didn't have to trust him. "Shape-changing," he mumbled at last.. This device, which could automatically pick any lock with just a few pulls of its trigger, was sold strictly to police departments, and its distribution was tightly controlled. On the black market it commanded such a high price that Junior could have bought the better part of a small Sklent painting for the same bucks.. Wally had disposed of his properties in San Francisco under Tom's careful supervision. Any attempt to trace him from the city to Bright Beach would fail. His vehicles were purchased through a corporation, and his new house had been bought through a trust named after his late wife.. In the kitchen were a radio, a toaster, a coffeepot, two place settings of cheap flatware, a small mismatched collection of thrift-shop plates and bowls and mugs, and a freezer full of TV dinners and English muffins.. As Tom Vanadium studied the stained and ravaged wall again, a cold and quivery uneasiness settled insectivally onto his scalp and down the back of his neck, quickly bored into his blood, and nested in his bones. He had the terrible feeling that he was not dealing with a known quantity anymore, not with the twisted man he'd thought he understood, but with a new and even more monstrous Enoch Cain. Carrying the tote bag full of Angel's dolls and coloring books, Wally crossed the sidewalk ahead of Celestina and climbed the front steps.. Then he curled up in one of the big armchairs in the living room and began the book again. This was the first time he had ever reread a novel-and he finished it at midnight.. "Forget Barty's tree for a second and imagine that all these many worlds are like stacked slices of Swiss cheese. Through some holes, you can see only the next slice.

Through others, you see through two or three or five slices before holes stop overlapping. There are little holes between stacked worlds, too, but they're constantly shifting, changing, second by second. And I can't see them, really, but I have an uncanny feel for them. Watch closely." The detective gazed at the cash as longingly as a glutton might stare at a custard pie, as intensely as a satyr might ogle a naked blonde. "Impossible. Too damn much integrity in their system. You might as well ask me to go to Buckingham Palace and fetch you a pair of the queen's undies." Celestina had no illusions about playing detective. She would never be able to track down the bastard, and she had no stomach for confronting him. In Losen's service was a man who called himself Hound, because, as he said, he had a nose for witchery. His employment was to sniff Losen's food and drink and garments and women, anything that might be used by enemy wizards against him; and also to inspect his warships. A ship is a fragile thing in a dangerous element, vulnerable to spells and hexes. As soon as Hound came aboard the new galley he scented something. "Well, well," he said, "who's this?" He walked to the helm and put his hand on it. "This is clever," he said. "But who is it? A newcomer, I think." He sniffed appreciatively. "Very clever," he said. Her name was Victoria Bressler, and she was an attractive blonde. She would never have been serious competition for Naomi, because Naomi had been singularly stunning, but Naomi, after all, was gone. He knew the titles that he wanted: "Tunnel in the Sky, Between Planets, Starman Jones." "After the war, for a while, I was able to get more mainstream work. Racially ... things were changing. But I was getting older, too, and the entertainment business is always looking for someone young, fresh. So I never made it big. Lord, I never even made it medium, but I got along okay. Until ... by the early 1950s, my booking agent found it harder and harder to line up good dates, good clubs." At 3:22 in the morning, December 13, following a busy day of conducting ghost research, seeking Bartholomews in a telephone book, and working on his needlepoint, Junior awakened to singing. A single voice. No instrumental accompaniment. A woman. The parsonage was a clean, respectable, and even charming house, but nothing about it might be called grand. No sweeping staircase offered a glamorous showcase adequate for Scarlett O'Hara. Instead, the stairs were enclosed, accessed by a door in one corner of the living room. His request felt like an assault. Agnes almost rocked backward as though struck. Although the distance to the ground was only ten feet, she would be risking too much by running blindly off the roof and leaping to clear the fringe of fire at the edge. A landing on the lawn might end well. But if she fell onto the walkway, she might break a leg or her back, depending on the angle of impact. Dessert was on the house. The waiter brought the four best items on the menu, to spare them the need to make two small decisions after having made such a big one. The strand was inclined toward the lake. He closed the door and got out of the way as the Studebaker rolled forward, gathering speed. Maria set aside two cards before turning another faceup. This was also an ace of hearts. Jacob didn't know how he could ever bear to look at Agnes when she came home from the hospital. The sorrow in her eyes would kill him as surely as a knife to the heart. Friday night, he slept more soundly than he'd slept since coming home from the pharmacy to discover Joshua Nunn and the paramedic in solemn silence at Perri's bedside. He didn't dream of trekking across a wasteland, neither salt flats nor snow-whipped plains of ice, and when he woke in the morning, he felt rested in body, mind, and soul. He ardently wished that he hadn't killed her with such merciful swiftness. If he'd tortured her first, he would now have the memory of her suffering from which to take consolation. The reception was from six o'clock to eight-thirty. If she were to arrive on time, guardian angels would have to be perched on all the traffic lights along the way. The diarrhea was over, finished, part of the past. Long ago he had learned never to dwell on the past, never to be overly concerned about the worries of the present, but to be focused entirely on the future. He was a man of the future. Here, now, came the anaconda smile. "Did you argue about the baby, Enoch? Maybe she wanted it, and you didn't. Guy like you--a baby would cramp your style. Too much responsibility." And here, now, into the kitchen through a door with a porthole in the center. Into sizzle and clatter, into clouds of fried-onion fumes and the mouthwatering aromas of chicken fat and shoestring potatoes turning golden in deep wells of boiling cooking oil. Junior's agony might have made him howl like a cankered dog or might even have dropped him to his knees if he hadn't used the pain to fuel his anger. His knobby countenance was so sensitive that the light breeze flailed his skin as cruelly as if it had been a barbed lash. Empowered by rage even more beautiful than his countenance was monstrous, he crossed the parking lot, looking through car windows in the hope of seeing keys dangling from an ignition. Missing windshield. Considering that the space was pinched by the crumpled roof, however, and in light of Agnes's pregnancy and imminent second-stage labor, the severe contortions involved in this extraction would be too dangerous. After the stupid bastards read a newspaper or smoked a few cigarettes, they finally broke down the door. Satisfyingly dramatic: the crack of splintering wood, the crash. Like the chicken egg. As weary as she was, Agnes could not at once puzzle out the meaning of those four words. Then: "Oh. He's in an incubator." The bullet had been fired by a renegade cop who was every bit as lousy a marksman as he was a corrupt scumball. He'd been aiming for Nolly's crotch. He picked up Angel, picked up Barty. "Hold on." He carried them out of the room, down the stairs, out of the house, to the yard under the great tree, where they would wait for the police, and where they would not see Jacob's body when the coroner removed it by way of the front door. Opening his eyes, still not daring to meet Victoria's gaze, Junior knew she had registered and properly interpreted his response to her seductive spooning. She had frozen, the utensil in midair, and her breath had caught in her throat. She was thrilled. When Victoria finally calmed her racing heart, she returned the spoon to the tray on the nightstand, stopped the carafe, and said, "That's enough for now, Mr. Cain. In your condition, even too much I melted ice might trigger renewed vomiting." "In addition to that policy," said Vinnie, "there's another. . . --he filled his lungs, hesitated, then exhaled the air and the sum with a tremor--seven hundred fifty thousand. Three-quarters of a million dollars." When Junior walked the cracked-linoleum corridor and descended the six flights of stairs to the street, he discovered that a thin drizzle was falling. The afternoon grew darker even as he turned his face to the sky, and the cold, dripping city,

which swaddled Bartholomew somewhere in its concrete folds, appeared not to be a beacon of culture and sophistication anymore, but a forbidding and dangerous empire, as it had never seemed to him before. One manly woman. Several womanly men. But no blocky figure that could have been the crazed cop even in disguise. The pair of sliding doors at the living-room archway stood half open. Beyond, voices drew Paul against his will. No longer pinned to the bed by an intravenous feed of fluids and medications, provided with pajamas and a thin cotton robe to replace his backless gown, Junior was encouraged to test his legs and get some. Wild exhilaration burst through him like pyrotechnics blazing in a night sky, reminiscent of the rush of excitement that followed his bold action on the fire tower. Happily, Junior had no emotional connection to Prosser, as he'd had to beloved Naomi; therefore, the purity of his MONEY FOR THE DEAD. The decomposing flesh of a beloved wife and an unborn baby transmuted into a fortune was an achievement that put to shame the alchemists' dreams of turning lead to gold. No sign of Vanadium. Some of the taller monuments offered hiding places on both sides of the cemetery road, as did the thicker trunks of the larger trees. Paul didn't realize that Grace had followed them into the living room until she screamed. She started to push past him, heading toward her husband even as Harrison went down. If Junior was not discreet, and if gossip about the widower Cain and the sexy nurse began to circulate, Vanadium would be on the case again even if it had been closed. The cop was sick, hateful, driven by unknowable inner demons. Although he might for the moment have been reined in by those in higher office, mere gossip of a spicy nature would be excuse enough for him to open the file again, which he'd surely do without informing his superiors. During the past week, he had ferreted out what he could about the nurse. She was thirty, divorced, without kids, and lived alone. Ordinarily, when Celestina was troubled, her art was a perfect sanctuary from all woes. When she was planning, composing, and rendering, time had no meaning for her, and life had no sting. When she didn't at once accept his generosity, he said, "All my life, I've lived just to get through the day. First survival. Then achievement, acquisition. Houses, investments, antiques ... There's nothing wrong with any of that. But it didn't fill the emptiness. Maybe one day I'll return to medicine. But that's a hectic existence, and right now I want peace, calm, time to reflect. Whatever I do from here on . . . I want my life to have a degree of purpose it's never had before. Can you understand that?" "You know," Tom said when the second round of drinks arrived, "hard as it is to believe, some places never heard of martinis." people that he was innocent and, in fact, constitutionally incapable of premeditated murder. She got a can of soda, returned to the table, and sat down as if finished with her explorations. "You're okay, Barty." Unsupervised meditation without seed, in sessions longer than an hour, entails risk. To his horror, Junior would discover some of the dangers in September. Kathleen watched him with obvious amusement, aware that he was savoring her suspense as much as he was the appetizer. Aware that his tension was building intolerably, Junior decided that he needed Scamp more than he dreaded her. He spent the remainder of Wednesday, until dawn Thursday, with the indefatigable redhead, whose bedroom contained a vast collection of scented massage oils in sufficient volume to fragrantly lubricate half the rolling stock of every railroad company doing business west of the Mississippi. The room was bright enough for him to confirm that he was alone. The interior of the box in which Naomi now resided could be no more silent than this house. They lived too far from the nearest railroad tracks. He could not rationally expect a derailed train to crash through the garage. But he was more than she had ever imagined her boy to be, more than merely a prodigy. The air was spicy with incense and with the fragrance of the lemon oil polish used on the wooden pews. "Search me. But I didn't tell him different. The less he knows, the better. I can't figure his motivation, but if you were tracking this guy by his spoor, you'd want to look for the imprint of cloven hooves." At home, Agnes had no appetite, but she fixed Barty a cheese sandwich, spooned potato salad into a dish, added a bag of corn chips and a Coke, and served this late dinner on a tray, in his room, where he was already in bed and reading Tunnel in the Sky. He placed a hand on her shoulder. "Don't beat up on yourself She's come this far. And though I don't know the hospital in Oregon, I doubt the level of care would equal what she'll receive here." "Periodic violent emesis without an apparent cause can be one indication of locomotor ataxia, but you've no other symptoms of it. I wouldn't worry about that unless this happens again." "Would you like a little tea and a piece of crumb cake?" Grace asked as smoothly as if, in The Big Book of Etiquette for Ministers' Wives, this were the preferred response to the announcement of a startling career change. She slipped into her shoes and stood for a moment watching his lips move as he gave thanks for his blessings and as he asked that blessings be given to others who needed them. An hour later, when Barty decided he wanted a soda, he switched off the book and asked Angel if she would like something to drink. JUNIOR CAIN WANDERED among the Philistines, in the gray land of conformity, seeking one-just one-refreshingly repellent canvas, finding only images that welcomed and even charmed, yearning for real art and the vicious emotional whirlpool of despair and disgust that it evoked, finding instead only themes of uplift and images of hope, surrounded by people who seemed to like everything from the paintings to the canapes to the cold January night, people who probably hadn't spent even one day of their lives brooding about the inevitability of nuclear annihilation before the end of this decade, people who smiled too much to be genuine intellectuals, and he felt more alone and threatened than eyeless Samson chained in Gaza. Wally's help, not just with the apartment, but with his time and love, had made an incalculable difference. His previous plan to create a tableau-butter on the floor, open oven door-to portray Victoria's death as an accident was no longer adequate. A new strategy was required. In a few instances, when his suspicions were aroused in spite of their denials, Junior tracked down their residences. He observed them in the flesh and made additional-and subtle-inquiries of their neighbors until he was satisfied that his quarry was elsewhere. In retrospect, he realized meditation didn't suit him. It was a passive activity, while by nature he was a man of action, happiest when doing. "Who else? I think there's romance in the air. The cow-eyed way he looks at her, she could knock his knees out from under him just by giving him a wink." Darkness, the one source of childhood fear that most adults never quite

outgrow, held no terror for Barty. Although for a while his bedroom featured a Mickey Mouse night-light, the miniature lamp was there not to soothe the boy, but to quiet his mother's nerves, because she worried about him waking alone, in blackness..She lived with her parents then. They had converted the dining room to a bedroom for her..He couldn't easily refuse the assignment. Later that year, President Lyndon Johnson, with strong backing from both the Democratic and the Republican Parties, was expected to sign the Civil Rights Act of 1964, and currently it was dangerous for clearheaded believers in the primacy of self to express their healthy instincts, which might be mistakenly perceived as racial prejudice. He could be fired..A fine carpenter can wield a hammer with an economy of movement and accuracy as elegant as the motions of a symphony conductor with a baton. A cop directing traffic can make a rough ballet out of the work. However, of all the humble tasks that men and women can transform into visual poetry by the application of athletic agility and grace, clambering into a Dumpster holds the least promise of beautification..Calling after her, Agnes said, "No, wait, sugarpie. He should be coming down right now, before it gets dark.".With every step through the long night walk, Paul had considered what he would say, must say, if this encounter ever took place. Now all his practiced words deserted him..Perhaps his sister intuited what Edom was about to say, because she didn't let him get started..On Tuesday evening, September 7, after half an hour in the lotus position, thinking about nothing whatsoever but a white pin with two black bands at its neck and the number I painted on its head, Junior went to bed at eleven o'clock and set his alarm for three in the morning, when he intended to shoot himself.. "You sounded as though you were in a lot of distress. You were frightened of this Bartholomew.".efficiency of a nurse, but as a courtesan might perform the task: smiling enticingly, a flirtatious glimmer in..She slept for a while, waking to a prayer spoken softly but fervently in Spanish..She didn't have an appetite, anyway. Joey was too much on her mind. The safe birth of a healthy child was a blessing, but it wasn't compensation for her loss. Although by nature resistant to depression, she now had a darkness in her heart that would not relent before a thousand dawns or ten thousand. If a mere nurse had insisted that she eat, Agnes would not have been persuaded, but she couldn't hold out against the insistent importuning of one special seamstress..He couldn't much longer take advantage of Paul Damascus's hospitality. Since bringing Wally to town, Tom had been staying in Paul's guest bedroom. He knew that he was welcome indefinitely, and the sense of family that he'd found with these people had only grown since January, but he nevertheless felt that he was imposing..She appeared to be in her early thirties, perhaps six years older than Junior, but he didn't hold that against her. He wasn't any more prejudiced against older people than he was against people of other races and ethnic origins.. "And in some of them, maybe I died the night you were born, and you live alone with your dad.".Tom had acted with the best intentions-but also with the intelligence and the good judgment that God had given him and that he had spent a lifetime honing. Good intentions alone can be the cobblestones from which the road to Hell is built; however, good intentions formed through much self-doubt and second-guessing, as Tom's always were guided by wisdom acquired from experience, are all that can be asked of us. Unintended consequences that should have been foreseeable are, he knew, the stuff of damnation, but those that we can't foresee, he hoped, are part of some design for which we can't be held responsible..In a cabinet above the bench, Junior found a pair of clean, cotton gardening gloves. He tried them on, and they fit well enough.. "All right. I get my new eyes from a doctor. They're not real eyes, just plastic, to fill in where my eyes used to be.".pride, his one great shining moment but also his sinful pride. Clubbed with the trophy first, fists later. And now, here..Paul watched as Barty hopped down from his chair and crossed the busy kitchen in a straight line to the wall phone, without one hesitant move.. "It isn't that, Daddy. You remember, when we were all together the day before yesterday, how afraid Phimie was of this man. Not just for herself ... for the baby.".Seven or eight years after Tehanu was published, I was asked to write a story set in Earthsea. A mere glimpse at the place told me that things had been happening there while I wasn't looking. It was high time to go back and find out what was going on now..Because Harrison, with the best of intentions, had not wanted to open wounds, Cain could walk up to Celestina anywhere, anytime, and she wouldn't know that he might have been her sister's rapist. To her, his face was that of any stranger..The paramedic pumped the inflation cuff of the sphygmomanometer, and Junior's blood pressure was most likely high enough to induce a stroke, driven skyward by the thought that Naomi's love had been a lie..Agnes delighted in their conversations. Barty was far ahead of the language learning curve for his age, but he was still a child, and his observations were filled with innocence and charm. "You mean your cold is like in your nose but not in your feet?". "Paul," she said, "you've got a lovely house, but Celestina and Grace are doers. They need to keep occupied. They'll go stir-crazy if they don't stay busy. Am I right, ladies?".Leaving Frieda unconscious and reeking, a condition in which her bralessness had no power to arouse him, Junior left..Almost thirty years from the seminary--even farther from it if measured by degrees of lost innocence, by miles of rough experience Tom Vanadium set out to kill a man. Given the chance to disarm Cain, given the opportunity to merely wound him, he would nevertheless go for the head shot or the heart shot, play jury and executioner, play God, and leave to God the judgment of his stained soul.. "Soon as Cain is out of sight, we yank up our tricky vending machines, then haul the real ones out of the van and bolt 'em down again. Slick, fast. People are still picking up quarters when we finish. And get this-they want to know where the camera is.".The glimmering bay and the shimmering amber candlelight provided the perfect atmosphere for the song that arose now from the piano in the bar..IN HIS FORD VAN filled with needlepoint and Sklent and Zedd, Junior Cain-Pinchbeck to the world-left the Bay Area by a back door. He took State Highway 24 to Walnut Creek, which might or might not have walnuts, but which offered a mountain and a state park named for the devil: Mount Diablo. State Highway 4 to Antioch brought him to a crossing of the river delta west of Bethel Island. Bethel, for those who had taken good advanced courses in vocabulary improvement, meant "sacred place.".The boy fell and rolled even as he pitched the can, anticipating the shots that Cain fired, which cracked into the doorframe inches from

Tom's knees..After too many years investigating homicides, after too much experience of human evil, perhaps he had grown both misanthropic and paranoid..Still relishing her little pretense of rejection, Victoria did not touch the rose. "What kind of woman do you think I am?".Barty followed the movement of her hand, raised his gaze to her eyes, hesitated, and then said questioningly, "No pie?".As they dropped toward the surgical floor, the solemn sister said, "Another hypertensive crisis..The lunatic lawman was not at any of the tables. Junior was sure of that, because indulging his appreciation for lovely women, he had roamed the room repeatedly with his gaze..A calico cat appeared at Tom's side, running, pacing him. Cats were witches' familiars. Good luck or bad, this cat?.Stepping forward lightly, lightly, as he swung the candlestick, Junior saw the dinner guest stiffen, perhaps sensing danger or at least movement, but it was too late. The guy didn't even have time to turn his head or duck.."so she's married," Junior said, figuring that maybe Celestina wasn't his heart mate, after all..Reflections of those tracks appeared as stigmatic tears on the long face of the physician..Toward the front of the house, along a hallway suddenly as dark as a tunnel, toward a vague light in the seething gloom. And here a window at the end of the hall.
