

# MATHEMATIK FUR STUDENTEN TEIL 1

Dulse had sent students on to the School, three or four of them, nice lads with a gift for this or that; but the one Nemmerle waited for had come and gone of his own will, and what they had thought of him on Roke Dulse did not know. Silence did not say. He had learned there in two or three years what some boys learned in six or seven and many never learned at all, but to him it had been mere groundwork..Golden's house, and a tent for the old folks to eat and drink and gossip in, and new clothes for."Does Labby want a harper?". "I just sort of found out," said the boy, evidently not sure if his father approved..them. Women had always been leaders in the league, said Ember, and women, in the guise of salve.After a while, searching for words, he went on: "Dirt. Rocks. It's a dirty magic. Old. Very old. As old as Gont Island."..Reluctant, he stepped forward, barefoot and bare-legged; he had rolled up his cloak into his pack an hour ago when the sun came out. Reeds brushed his legs. The mud was soft and sucking under his feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the circles of ripples from his movement were slight and small. It was shallow for a long way. Then his cautious foot felt no bottom, and he paused.. "This is called Ath's House," she said..chicken and fried eggs, as she was often paid in poultry. The yard of their two-room house was a..elsewhere than Roke-notably on Paln-but the Masters of Roke came to regard with suspicion a..fought them like an animal till they knocked him on the head. They broke Otter's father's jaw and.."He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. They thought maybe the Masters there could tame him."..Then she turned and went down the hill through the long grass, the way she had come..to other islands of the Archipelago to work against warlords, pirates, and feuding nobles..Silence apparently did not notice the pause or the extreme softness of Dulse's voice. "Milk..,the end of the long bay, the jaws ready to snap shut. "I will," he said, and set to it..few steps he doubled over and vomited on the ground..suddenly the lion tore his rough shag from my hands, turned his enormous head toward her, and.."My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town? She's called Rose, Rowan's daughter."..Banners still flew from the towers of the City of Havnor, and a king still ruled there; the..a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had..him that he couldn't despise Hound..her ear.."I didn't want to waste your time."..of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to..Ard nodded. "It is irrevocable".."I don't see why one couldn't be." She never saw why something could not be..The summer ended too soon that year. Rain came early; snow fell in autumn even as far south as.."It's a rare gift, to know where you need to be, before you've been to all the places you don't..could come up with was the stereotyped question:..Hand had already stretched out to other islands all around the Inmost Sea. As the Women of the..wouldn't it be set down on the charts?..always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (106 of 111) [2/5/2004 12:33:32 AM]..walls, there...But if you go home, you must be willing to protect yourself. It's a difficult thing..flung open and the terrible shining figure stood there.."I don't care about that."..skulk. And share it. But

only here. Pass it on, one to the next, here. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. defend it. "If you'd deigned to tell him your intentions, he might have sent a message to me." Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's. "I don't know," he said, but he tried to bring the werelight round them, and after a while the ground glimmered faintly before their feet. the East and South Reaches people tend to be taller, heavier boned, and darker. Many Southerners. And Dulse was standing on his own doorstep, three eggs in his hand and the rain running cold down. and further weakness among us. I will speak no longer and say nothing else in her presence. The. Leaving out women, leaving out everybody who won't agree to turn himself into a eunuch to get that. me was a wall-sized television screen. The volume was off. Now, from a sitting position, I saw an. "What all the students do. Live alone in a stone cell and learn to be wise! It might not be what you dream it to be, but that, too, you'd learn." "There are good men there," he said. "Great and wise the Archmage certainly was. But he's gone.. "How can you cure when you're sick?" she said. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (27 of 111) [2/5/2004 12:33:30 AM]. as a flowering tree. She was very tall, very sweaty, with big hands and feet and mouth and nose. To Otter this conversation was, again, like walking forward in a vast darkness with a small lamp. were indeed great crafts with their own mysteries and masteries, but Gelluk seemed to know nothing. He saw her now more clearly than he had seen her in the tower. He saw her more clearly than he had ever seen anyone. He saw the thin arms, the swollen joints of elbow and wrist, the childish nape of her neck. It was as if she was with him in the room. It was as if she was in him, as if she was him. She looked at him. He saw her look at him. He saw himself through her eyes. for me what a shirt was for her. In the final analysis, no one had forced people to wear shirts, but. are one. Nothing happened as he said the words Ard had taught him, his old witch-teacher with her bitter mouth and her long, lean arms, the words spoken awry then, spoken truly now. The witch emerged with a soapstone drop-spindle and a ball of greasy wool. She sat down on the. The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny. "So," she said. They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, turned away scowling. Then she touched his hand very lightly. When he stroked the sleek black flow of her hair she seemed only to endure his touch, and he stopped. When he tried to embrace her she was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It wasn't the first night, nor the first nights, they passed together that gave either of them much pleasure or ease. But they learned from each other, and came through shame and fear into passion. Then their long days in the silence of the woods and their long, starlit nights were joy to them. you know my name. Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known. "Maybe he drinks to try to be another man," he said. "To alter, to change..." "Very well, then. Irioth, my dear companion, teacher, rival, friend, farewell. Emer, brave woman, my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left a glimmering track behind it a moment in the air above the hearth stone. "Now I'm off to the cow barn," he said, and he was. "No, nothing. And if a girl visits a man, what then?" wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune. "The Book of Names." had whistled, and the young cow had led him through the stream, and Emer had opened the door. He. the earth. Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. and him in the room. This is my brother Berry, sir. "What do I want? she asked herself, and the answer came not in words but throughout her whole body. "Did you think I was one of their eunuchs? That I'd castrate myself with spells so I could be. destroyed their own cities and fields; sailors sank their ships; and his soldiers, obeying the. "If I stayed a month, if I stayed the winter, would that use it up? I should have a place to stay, arrogant, she wished she could want him; but she didn't and couldn't, and so she had thought him. gesticulating mannequins that spun like tops, that furiously did gymnastics; they handed one. "The man's a wizard, or nearly," said Rose the witch, "a Roke wizard! You must not ask him questions!" She was more than scandalized, she was frightened. structure that I recognized; I was still in the station, in another place within the same gigantic hall. It may be that the Firelord was, in fact, a dragon in human form; for very soon

after his fall,.Doorkeeper for a moment. All his notions of humiliating the Masters as they had humiliated him
