

S OF NEW SOUTH WALES ALPHABETICALLY ARRANGED IN THE EASTERN CENTR

Agnes wanted to reach out and touch him, but she found that she didn't have the strength to raise her arm. She was no longer holding her belly, either. Both hands lay at her sides, palms up, and even the simple act of curling her fingers required surprising effort and concentration. Yet the coin was as real as dead Naomi broken on the stony ridge at the foot of the fire tower. Always, he was good with Barty, and on this occasion, he teased more than the usual number of smiles and giggles from the boy as he tried to get him to read the Snellen chart on the wall. Then he lowered the lights in the examination room to study his eyes with an ophthalmometer and an ophthalmoscope. Vanadium, lending an aura of normalcy to the house. Now he wanted silence, so he would immediately hear another car in the driveway if one arrived. They introduced themselves as Knacker, Hisscus, and Nork, but Junior didn't bother to associate names with faces, partly because the men were so alike in appearance and manner that their own mothers might have had difficulty figuring out which of them to blame for never calling. Besides, he was still tired from his recent ramble through the hospital-and unnerved by the thought of some baleful-eyed Bartholomew prowling the world in search of him. "To support my eyelids. And because without anything in the sockets, I look gross. People barf. Old ladies pass out. Little girls like you Pee their pants and run screaming." Junior realized that thick drool oozed out of the right corner of his mouth. Shakily, he raised one hand to wipe his face. Agnes hoped that the boy would spend a night or two in her room, until he was reoriented to the house. But Barty wanted to sleep in his own bed. The end of his quest was near, so near, the right Bartholomew almost within 'mullet range. He was furious with Neddy Gnathic for possibly screwing this up. When pale light came to her eyes again, she heard the paramedic and the cop talking anxiously as they worked on her, but she couldn't understand their words. They seemed to be speaking not just a foreign tongue but an ancient language unheard on earth for a thousand years. He chased after none of these lovelies beyond a few dates, and none of them pursued him when he was done with them, although surely they were distressed if not bereft at losing him. In the glamorous cocktail lounge of this elegant hotel, Junior was necessarily forced to use other of Zedd's techniques-and more brandy--to liberate from his subconscious the name of the caller on the Ansaphone. Max. The caller had said, It's Max. In the city again, he stopped long enough to donate the raincoat to a homeless man who didn't notice the few odd stains. This pathetic hobo happily accepted the fine coat, donned it-and then cursed his benefactor, spat at him, and threatened him with a claw hammer. To the growing pile of ruin, she added one of Joey's cardigan sweaters, after popping loose one bone button and almost completely detaching a sewn-on patch pocket. A pair of knockabout khaki pants: quickly clip open the seat seam; cut the corner of the wallet pocket, then rip it with both hands; snip loose some stitching and half detach the cuff on the left leg. So. Two monks they were: one in the service of everlasting light, the other in the service of eternal darkness. Impressed by the sureness and swiftness with which the blind boy negotiated the steps and set off across the lawn, Tom didn't initially notice anything unusual about his stroll through the deluge. Because this kind of fictional fact, like maps of imaginary realms, is of real interest to some readers, I include the description after the stories. I also redrew the geographical maps for this book, and while doing so, happily discovered a very old one in the Archives in Havnor. She traded silence for silence. Then: "Kiddo, I'm still totally confused by this stuff." Ford dealership, which he'd closed for business until three o'clock: lamentations, lunch, and moving reminiscences of the deceased shared among the shiny new Thunderbirds, Galaxies, and Mustangs. That venue would provide Junior with the witnesses he required for his reluctant, tearful, and perhaps even angry concession to the Hackachaks' insistent materialism. Copyright (c) 1999 by Ursula K. Le Guin. "Dragonfly" first appeared in Legends. No longer able to judge the boy's degree of sleepiness by his eyes, she relied on him to tell her when to stop reading. At his request, she closed the book after forty-seven pages, at the end of Chapter 2. As a homicide detective, Vanadium had a career-spanning ninety eight percent closure-and-conviction record on the cases he handled. Once convinced he had found the guilty party, he didn't rely solely on solid police work. He augmented the usual investigative procedures and techniques with his own brand of psychological warfare-sometimes subtle, sometimes not-which frequently encouraged the perpetrator to make mistakes that convicted him. Agnes wanted to tell them that all their efforts would be to no avail, that they should cease and desist, be kind and let her go. She had no reason to stay here anymore. She was moving on to be with her dead husband and her dead baby, moving on to a place where there was no pain, where no one was as poor as. On one wall hung an impressive array of gardening tools. In the corner was a potting bench. He waited for Otter to nod, but Otter stood motionless. On the back of the watch case, however, were the incriminating words of a commemorative engraving: To Eenie/Love/Tammy Bean. Abruptly, Junior Cain turned away from the tower, from the body of his lost love, dropped to his knees, and vomited. Vomited more explosively than he had ever done in the depths of the worst sickness of his life. Bitter, thick, grossly out of proportion to the simple lunch that he had eaten, up came a dreadfully reeking vomitus. He was untroubled by nausea, but his abdominal muscles contracted painfully, so tightly that he thought he would be cinched in two, and up came more, and still more, spasm after spasm, until he spewed a thin gruel green with bile, which surely had to be the last of it, but was not, for here was more bile, so acidic that his gums burned from contact with it--Oh God, please no-still more. His entire body heaving. Choking as he aspirated a piece of something vile. He squeezed his watering eyes shut against the sight of the flood, but he could not block out the stench. When he returned to the kitchen to add ice and sherry to his glass, he looked up White, Celestina in the San Francisco phone directory. Her number was listed; her address was not. His first overnight journey, in June of '65, was to La Jolla, north of San Diego. He carried too large a backpack and wore khaki pants when he should have worn shorts in the summer heat. There was an otter in our brook. Chan nodded. "Considering the advanced stage of Bartholomew's

malignancies, he should have complained earlier than he did." Junior suspected Magusson never had any client but himself. Fat fees motivated him, not justice..The afternoon was winding down, and the lowering sky seemed to be drawn steadily toward the earth by threads of gray light that reeled westward, ever faster, over the horizon's spool. The air smelled like rain waiting to happen..Cops at the doorstep, the lunatic bitch with the chair, the clergyman's curse-all this amounted to more than even a committed man could handle. Get out of the present, go for the future.."You better wise up, you tree-humping nitwit," Rudy advised Junior, grabbing the bed railing as if he might tear it off and use it to club his son-in-law senseless.."I'm a healer, not a prosecutor. I'm not in the habit of making accusations, especially not against my own patients.".."You know," Tom said when the second round of drinks arrived, "hard as it is to believe, some places never heard of martinis."..He wanted an explanation, but no one could give him the one that he needed, because nobody but he himself knew the significance and symbolism of the quarter..He didn't allow himself to ponder why Vanadium had come here or what relationship might have existed between the cop and Victoria. All that was for later consideration, after he had dealt with this unholy mess.."Is it as bad as that?" Celestina wondered plaintively, though she knew the answer. "I love San Francisco. The city inspires my work. I've built a life here. Is it really as bad as that?.."Startled, the pianist turned to face him-and backed off a step, as though his personal space had been too deeply invaded. "Oh, well, thank you, that's kind. I love my work, you know, it's so much fun it hardly qualifies as work at all. I've been playing the piano since I was six, and I was never one of those children who whined about having to take lessons. I simply couldn't get enough."..In the late-afternoon light, on this Christmas Eve, Barty was no ghost, no illusion..Junior hadn't paid attention to everyone who visited the pianist though surely he'd have noticed a certain stump in a cheap suit..Her brothers' solemnity irritated Agnes. They appeared to be taking this reading seriously, as though it were far more than just a little after-dinner entertainment..Junior intended to pack only a single bag, leaving most of his clothes behind. He could afford a fine new wardrobe..Frequently, these days, she found herself explaining aspects of life to Barty that she hadn't expected to discuss for years to come. She wondered how she could make him understand this: Life can be so sweet, so full, that sometimes happiness is nearly as intense as anguish, and the pressure of it in the heart swells close to pain.."You should call San Francisco police, have them put your place under surveillance and nail him if he turns up."..Junior jammed on the brakes, slammed the gearshift into park, threw open the door, and plunged from the car. He spun around to face the menace, loose gravel shifting treacherously underfoot.."Even when I was a young boy," Tom continued, "the world felt a lot different to me from the way it looked to other people. I don't mean I was smarter. I've got maybe a little better than average IQ, but nothing I could brag about. Flunked geography twice and history once. No one would ever confuse me and Einstein. It's just, I felt ... such complexity and mystery that other people didn't appreciate, such layered beauty, layers upon layers like phyllo pastry, each new layer more amazing than the last. I can't explain it to you without sounding like a holy fool, but even as a boy, I wanted to serve the God who had created so much wonder, regardless of how strange and perhaps even beyond all understanding He might be."..Phimie's speech had been slurred later, as well, immediately following the birth of the baby, when she had struggled to convey her desire to name her daughter Angel..He clenched the steering wheel tightly with both hands, clenched his teeth so fiercely that his jaw muscles bulged and twitched, and clenched his mind around a stubborn determination to get control of himself. Slow deep breaths. Positive thoughts..Just as Celestina snapped shut the latches on the suitcase and turned to the door, a nurse's aide entered, pushing a cart loaded with towels and bed linens..Edom's twin, Jacob, who had never held a job, lived in the second apartment. He'd been there since graduating from high school..Now the message ... Something about a hospital. Someone dying. A cerebral hemorrhage.."Not so unbelievable," said Jacob. "Forty-five thousand people every year die in automobiles. Cars aren't transportation. They're death machines. Tens of thousands are disfigured, maimed for life.".."Yes, but it's a Catholic hospital, and they offer this option to all unwed mothers-doesn't matter what their religion."..out of hand. "Well ... yes, I suppose so." Spineless, unethical quack bastard, Junior thought bitterly..During Junior's brief stroll, the sidewalk ended, giving way to the graveled shoulder of the road. He saw no one on foot, and no vehicles passed him..Many police agencies required an officer to carry a firearm even when off duty. If the Oregon State Police had no such rule, Vanadium most likely carried one anyway, because in his crazy-as-a-snake mind..Considering the protection that it would afford him in a world full of warmongers, Junior considered the loss of the toe, while tragic, to be a necessary disfigurement. To his doctors and nurses, he made jokes about dismemberment, and in general he put on a brave face, for which he knew he was much admired..you greater strength and determination than any other motive. But you should know this much.... You need to keep her safe for another reason. She's special. I don't want to explain why she's special or how I know that she is, because this isn't the time or place, not with your dad's death and Wally in the hospital and you still shaky from the attack."..AS MEANINGFUL AS Jacob's death had been within the small world of his family, Agnes Lampion never lost sight of the fact that there were more resonant deaths in the larger world before 1968 ended and the Year of the Rooster followed. On the fourth of April, James Earl Ray gunned down Martin Luther King on a motel balcony in Memphis, but the assassin's hopes were foiled when, because of this murder, freedom grew more vigorously from the richness of a in martyr's blood. On June 1, Helen Keller died peacefully at eighty-seven. Blind and deaf since early childhood, mute until her adolescence, Miss Keller led a life of astonishing accomplishment; she learned to speak, to ride horses, to waltz; she graduated cum laude from Radcliffe, an inspiration to millions and a testament to the potential in even the most blighted life. On June 5, Senator Robert F. Kennedy was assassinated in the kitchen of the Ambassador Hotel in Los Angeles. Unknown numbers died when Soviet tanks invaded Czechoslovakia, and hundreds of thousands perished in the final days of the Cultural Revolution in China, many eaten in acts of cannibalism sanctioned by Chairman Mao as acceptable political action. John Steinbeck, novelist, and Tallulah Bankhead, actress, came to the end

of their journeys in this world, if not yet in all others. But James Lovell, William Anders, and Frank Borman-the first men to orbit the moon-traveled 250,000 miles into space, and all returned alive..The silence on the line was not merely that of a caller holding her tongue. It was abyssal and perfect, as no silence on a telephone ever can be, without the faintest hiss or crackle of static, no hint of breathing or.If he didn't find the Rolex and get back to his car before the reception ended, he'd forfeit his best chance of following Celestina to Bartholomew..For Agnes and Barty, one stop remained, where some of the joy of Christmas would always be buried with the husband that she still missed every day and the father that he would never know..He opened the solid doors on the bottom of the breakfront, did not find what he was looking for, checked in the sideboard next, and there it was, a small liquor supply. Scotch, gin, vodka. He selected a full bottle of vodka..Tuesday morning, while he showered with a swimming cockroach that was as exuberant as a golden retriever in the motel's lukewarm water, Junior vowed never to kill again. Except in self-defense..He groaned. "That just doesn't cut it, Mom. If I gotta be blind, I think I should get to say peed off." Prudence required that they strategize as though Enoch Cain were Satan himself, as though every fly and beetle and rat provided eyes and ears for the killer, as though ordinary precautions could never foil him..He rolled Neddy onto one side, but no gold watch lay underneath, so he let the musician flop onto his back again..The thorns had not been stripped from the long stem of the white rose. Vanadium clutched it so tightly that the sharp points punctured his meaty palm. He seemed to be unaware of his wounds..Later, when the seven of them were gathered at the dinner table, the adults raised glasses of Chardonnay, the children raised tumblers of Pepsi, and Maria gave the toast. "To Bartholomew, the image of his father, who was the kindest man I've ever known. To my Bonita and my Francesca, who brighten every day. To Edom and Jacob, from who ... from whom I've learned so much that has made me think about the fragility of life and made me realize how precious is every day. And to Agnes, my dearest friend, who has given me, oh, so much, including all these words. God bless us, every one."The attorney's admission surprised Junior. This was probably as close as Magusson would ever get to saying, Maybe you didn't kill your wife, after all, but he was by nature a nasty prick, so even an implied apology was more than Junior had ever expected to receive..He woke at noon, eyes gummed shut with the effluence of sleep. He felt lousy, but he was in control of himself-and strong enough to fetch his suitcase, which he'd been unable to carry upon arrival.."Imagine me thinking you'd be gone," she said to Barty. "Your old mum is losing it. I never made a deal with Rumpelstiltskin, so there's nothing for him to collect." Her belief in fortune-telling and in the curious ritual she was about to undertake weren't condoned by the Church. Mysticism of this sort was, in fact, considered to be a sin, a distraction from faith and a perversion of it..Jacob had become a card mechanic for one purpose. Not because he'd ever be a gambler. Not to wow friends with card tricks. Not because the challenge intrigued him. He wanted to be able to give Agnes winning cards once in a while, if she was losing too frequently or needed to have her spirits lifted. He didn't feed her winning hands often enough to make her suspicious or to make the games less fun for Edom or Joey. He was judicious. The effort he expended-the thousands of hours of practice-was repaid with interest each time Agnes laughed with delight after being dealt a perfect hand..For the next few days, they would eat all their meals in the suite. Most likely, Cain had left San Francisco. And even if the killer hadn't fled, this was a big city, where a chance encounter with him was unlikely. Yet having, assumed the role of guardian, Tom Vanadium had a zero tolerance for risk, because the inimitable Mr. Cain had proved himself to be a master of the unlikely..One of the gifts of power is to know power. Wizard knows wizard, unless the concealment is very skillful. And the boy had no skills at all except in boat-building, of which he was a promising scholar by the age of twelve. About that time the midwife who had helped his mother at his birth came by and said to his parents, "Let Otter come to me in the evenings after work. He should learn the songs and be prepared for his naming day."Using a clean rag that they had brought to polish the engraved face of the memorial, Barty said, "Is he good with numbers like me?".The dinner guest leaned back into the car, as though to retrieve something. Perhaps he, too, had been considerate enough to bring a small gift for his hostess..The white padded eye patches rebuffed her, and she realized how profoundly the boy's double enucleation would affect how easily she could read his moods and know his mind. Here was a littler loss until now shadowed by the greater destruction. Denied the evidence of his eyes, she would need to be better at noting and interpreting nuances of his body language-also changed by blindness-and his voice, for there would be no soul revealed by hand-painted, plastic implants.."Paul told us the night he first came to the parsonage. About Agnes here ... and what had happened to Barty. And all about his late wife, Perri. I feel like I know Bright Beach already." Yet through the summer of 1966, following this call, he acted like a man who was haunted. A sudden draft, even if warm, chilled him and caused him to turn in circles, seeking the source. In the middle of the night, the most innocent of sounds could scramble him from bed and send him on a search of the apartment, flinching from harmless shadows and twitching at looming invisibilities that he imagined he saw at the edges of his vision.."Well, you're sweet, aren't you? And you're all bright red on the outside and milk chocolate inside," Celestina said, gently tweaking the girl's light brown nose..Yet for all his love of reading and of music, events suggested that for mathematics he had a still greater aptitude..From the moment the girl was admitted on the evening of January 5, the nurses at St. Mary's Hospital in San Francisco called her Phimie, too, not because they knew her well enough to love her, but because that was the name they heard Celestina use..The opening paragraph still lingered in his memory, because he had crafted it with great care: Greetings on this momentous day. I'm writing to you about an exceptional woman, Agnes Lampion, whose life you have touched without knowing, and whose story may interest you..That same day, he dared to visit two galleries. Neither of them had a pewter candlestick on display..He hurried into the bedroom and switched on the nightstand lamp, without concern for whether the light might be seen from the street..A shock-haired, bright-eyed woman with a candle bound to her forehead set down her pick to show Otter a little cinnabar in a bucket, brownish red clots and crumbs. Shadows leapt across

the earth face at which the miners worked. Old timbers creaked, dirt sifted down. Though the air ran cool through the darkness, the drifts and levels were so low and narrow the miners had to stoop and squeeze their way. In places the ceilings had collapsed. Ladders were shaky. The mine was a terrifying place; yet Otter felt a sense of shelter in it. He was half sorry to go back up into the burning day..Eventually Agnes came to suspect that for all the pleasure the boy took in math and for all his aptitude with numbers, his greatest gift and his deepest passion lay elsewhere. He was finding his way toward a destiny both more astonishing and stranger than the lives of any of the many prodigies about whom she'd read..Junior had thought the news was the lab report, which had found no ipecac in his spew. All that had been distraction..Before Celestina probed and perhaps touched upon a sore tooth of truth, Tom launched into the story of King Obadiah, Pharaoh of the Fantastic, who had taught him all he knew about sleight of hand..A man came out of the stone tower. He passed them, walking hurriedly with a queer shambling gait, staring straight ahead. His chin shone and his chest was wet with spittle leaking from his lips..Allowing one month for the job might be optimistic. On the other hand, he'd had a long time to perfect a strategy..During the first year of her illness, she had been slowly weaned off an iron lung. Until she was seventeen, she required the chest respirator, but gradually gained the strength to breathe unassisted.. "Money's no object. I can afford whatever you'd like to charge. And I'd be a diligent student..Celestina had chosen to shelter the bastard boy, and in so doing, she had declared herself to be Junior's enemy, though he'd never done anything to her, not anything. She didn't deserve him, really, not even one quick bang before the bang of the gun, and maybe after he shot Ichabod, he'd let her beg for a taste of the Cain cane, but deny her..Rescuers appeared with hydraulic pry bars and metal cutting saws. Civilians were shepherded back to the sidewalks.. "Blood tests should reveal whether the child's yours or not. That also might explain all this..For more than two weeks, Agnes's heart had been a clangorous place, filled with the rattle and bang of hard emotions, but now a sort of quiet had come upon it, a peace that, if it held, might one day allow joy again.. "Well, he was an insurance agent, and numbers are important in that line of work. And he was a good investor, too. Not the whiz you are with numbers, but I'm sure you got some of your talent from him..OTTER WAS THE SON of a boatwright who worked in the shipyards of Havnor Great Port. His mother gave him his country name; she was a farm woman from Endlane village, around northwest of Mount Onn. She had come to the city seeking work, as many came. Decent folk in a decent trade in troubled times, the boatwright and his family were anxious not to come to notice lest they come to grief. And so, when it became clear that the boy had a gift of magery, his father tried to beat it out of him..The family didn't exist in anticipation of developments with Barty and Angel, didn't put the pair at the center of their world. Instead, they did the good work, shared the satisfactions that came daily with being part of Pie Lady Services, and got on with life..A plate-size piece of the door had been blasted away. Because of the light shining through from the room beyond, Junior could see that no part of the lock remained intact. In fact, he peered through the hole in the door to the back of a piece of furniture that was jammed against it, whereupon the nature of the problem became clear to him..Kathleen had never heard a religious calling described in such odd words as these, and she was surprised, indeed, to hear a priest refer to God as "strange.. "He came through the surgery well. He'll be in post-op for a while, then brought here to the ICU. His condition's critical, but there are degrees of critical, and I believe we'll be able to upgrade him to serious long before this day is over. He's going to make it."
