Celia took a quick breath, held it for a moment, and then lifted her face toward him. "Very well. I've seen what happened to the corporal and to Padawski. It's got just about everything, and you just walk in and take what you want. We got talking to some Chironians, and they showed us what you do. I don't understand it either, but that's how things work here." Jean looked away as she heard the front door open. A few seconds later Jay arrived. He had a brand-new-looking backpack slung across one shoulder end was carrying a framed painting of an icy, mountainous landscape with a background of stormy sky under one arm. His dark-adapted eyes sting briefly from the glare. With a whimper, the dog squats and pees. "It's a pretty house," Hanlon said after another short silence. Colman had begun to see parts of such a pattern, although not with the simple completeness that Swyley had described. What Swyley was saying might be true as far as it went, but Colman was certain that in Kath's case Swyley had, for once, missed something, something more personal than just political motivation. To be accepted, he has to be seen to go by the rules. If he didn't he'd become a threat to the group, and they'd reject him. And nobody can take that. Look around and watch all the crazy things people get into just so they can feel they belong to something that matters." hollow note in this confined space. "Aha!" The preacher made an appealing gesture to the audience. "Is there any difference, my friends? Can we see atoms? Is this not arrogant insolence?" Walters grunted, scanned quickly over the displays, and called the log for the last four hours onto an empty screen. "Looks like we're in for another strip down on that goddamn pump," he murmured without turning his head. "Looks like it," Fallows agreed with a sigh. "An afterlife without Hell," Aunt Gen explained, "would be as polluted and unendurable as a world. Kath laughed and rolled back to stare up at the ceiling. "You're just like us, aren't you," she said. "You don't know where you came from either." attempt to add some dark glamour to the image of Ms. Leilani Klonk, flamboyant young mutant. studied her torso. No boobs yet. She hadn't expected any dramatic change, just perhaps vague swellings. The process had been the same all through history, and it was happening again. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And 'yet they could tell everybody it made them better than the people were, and the people believed it. "Okay," said Micky, "then try this one on for size. You're a child because you don't yet have boobs." and humiliation, although until this moment she would have angrily denied ever being anyone's victim, she. what he believes. Every hour of survival will bring him closer to ultimate freedom, and each new sunrise. The murmurs from across the street rose suddenly to catcalls and jeers, accompanied by waving fists and the brandishing of sticks that appeared suddenly from somewhere. Colman turned and saw the black limousine that Howard Kalens had had

brought down from the Mayflower II appear at an intersection a block farther along the street and stop near a group of officers standing nearby. Major Thorpe detached himself from the group and walked across. Colman could see Kalens's silver-haired figure talking to the major from the rear seat. Somebody threw a rock, which landed short and clattered harmlessly along the pavement past the feet of the officers. More followed, and several Terrans moved forward threateningly. Before this bad situation can turn suddenly worse, boy and dog scramble across the brow of the ridge. But a stepfather who had committed eleven murders? Who killed elderly women? Sooner or later, they'll come back here, run a search through the diner, around the motel, and wherever. But Celia seemed for the moment to be on the verge of collapse from nervous exhaustion. "I can't imagine whole cities burning. It must have been horrible." crosslight of the moon and the fading purple dusk, but that probably matched Leilani's shade of blond. Farnhill's staff had given up trying to get the Chironians to provide an official list of who would be greeting the delegation. In the end they had simply advised the Kuanyin when the shuttle would arrive and resigned themselves to playing things by ear after that. The Chironians had agreed readily enough, which was why the orders issued that morning had called for a reduced alertness level Kalens's delegation had met with an equal lack of success in dealing with Franklin, and had elected finally to go to the surface on the same basis as the delegation to the Kuan-yin, but with more elaborate preparations and ceremonies. them, although these machines aren't smart enough to withhold their heat when your hands are dry. Celia sank back into her seat and closed her eyes with a nod and a sigh of relief. One of the figures in the darkness wanted to know how come somebody called Stanislaw knew how to fly something like this; Another voice replied that his father used to steal them from the government. "You're not crazy," Jay said. "So what made you join?" "It was a group, just like I've been saying--something to belong to. I'd always been on my own, and I went around causing trouble just to get noticed. People are like that. It doesn't matter what you do, whether it's good or bad, as long as you do something that makes people notice that you're there. Nothing's worse than not making any difference to anything." Colman shrugged. "I beat up a guy who asked for it but happened to have a rich dad, and they offered me the Army instead of locking me up because they figured it was just as bad. "On what?" his in Congress, and that they might see more long-term profit in betraying her than in serving her honestly. As she descended the back steps from Geneva's kitchen, Leilani regretted leaving Micky and Mrs. D so. "I've got one too," Veronica whispered, bringing her face. "Now you're in a gang with a future." The bright, sharp memory of that violence would shred his sanity if he dwelt on it. For the sake of. know why you can't, too, and that's all right." Leilani winced. "Unfair. You know that's one of my sore points." "No sore points. No points at all." "What would you wish them to do?" Kath asked, implying that Colman was correct in at least one of his assumptions without giving any hint of which, She had reacted to the subject with calmness and composure, almost as if she had been expecting it, but there was a firmness in her expression that Colman had not seen on any previous occasion. Her manner conveyed that what was at stake went beyond personal feelings and individual considerations, bathroom break, they are intent on getting away from flying bullets. "Technically you're right," Kath agreed. She raised her head to look at the pictures of her children on the wall with a faraway look in her eyes. "They might be scattered all over the planet, and the way they live might be a little strange compared to what you're used to, but it's a happy family in its own way," she murmured. "But it's still not really the same. It doesn't really feel as if any part of it has any link to anything that happened before fifty years ago. Don't you think it's ... oh, I don't know, kind of a shame somehow?" He wishes that he'd returned for her and had bravely spirited her to safety. This is a ridiculously romantic. as heartworm, but I guess it's a perfectly respectable parasite. Anyway, I assure you with all. "When I went to Port Norday with Jay, I found out that they're planning a new complex farther north. They're going to need engineers-fusion engineers. They practically told me

I'd have no problem getting in there, to a top job maybe, Think of it-our own place just like we've always said, and no more crap from Merrick or any of them!" Bernard threw his hands high. "I could be me for the first time in my life. . . and so could you, all of us. We don't have to listen to them telling us who we are and what we have to be ever again. Doesn't that.." His voice trailed away as he saw that it wasn't having the effect he had hoped. Jean was backing away through the door, shaking her head in mute protest..and at the center of the design is he himself, caught and murdered..Micky had no appetite. She left the pie untouched. "She really was in an institution once, wasn't she?"..He's at too great a distance for those beams to expose him. And in the absence of a moon, although he.."Maybe you should try looking at it their way," Colman said..Leilani shrugged. "It's the truth. I couldn't make up anything as weird as what is. In fact, they blasted her.them around the base later; nobody had seen them at the perimeter; nobody had flown them out; and an intensive search carried on all through the night had failed to locate them anywhere. It was impossible, but it had happened..Tail wagging, the pooch pads into the bathroom?and straight toward the toilet cubicle.."We've only seen Franklin," Pernak replied. "There's a whole planet out there."..CHAPTER THIRTY-FOUR.."But you haven't. You haven't let it go at all.."Over his glass, Colman watched as three Special Duty troopers made their way to the bar. They stood erect and intimidating in their dark olive uniforms, cap-peaks pulled low over their faces, and surveyed the surroundings over, hard, jutting chins. Nobody met their stares for long before looking away. One of them murmured an order to the bartender, who nodded and quickly set up glasses, then grabbed bottles from the shelf behind. The SD's were the elite of the regular corps, handpicked for being the meanest bastards in the Army and utterly without humor. They reminded Colman of the commando units he had seen in the Transvaal. They provided bodyguards for VIPs on ceremonial occasions--there was hardly any reason apart from tradition in the Mayflower II's environment--and had been formed by Borftein as a crack unit sworn under a special oath of loyalty. Their commanding officer was a general named Stormbel. D Company made jokes about their clockwork precision on parades and the invisible strings that Stormbel used to jerk them around, but not while any of them were within earshot. They called the SD's the Stromboli Division..MEXICO. On the front, the word STARCHILD was emblazoned in two-inch red letters..Marcia Quarrey then raised the question of a separate governor, responsible to Wellesley, but physically based on the surface inside the enclave to administer its affairs. Perhaps the division of authority between the members of the Directorate sitting twenty thousand miles aw4 in the ship had contributed to the difficulties experienced since planetfall, she suggested, and delegating it to one person who had the advantages of being on the spot would remedy a lot of defects. Opinions were in favor, and Quarrey nominated Deputy Director Sterm for the new office. Sterm, however, declined on the grounds that a large part of the job would involve policymaking connected with Terran-Chironian relationships, and since a Liaison Director existed to whom that responsibility was already entrusted, the sensible way to avoid possible conflicts was to unify the two functions, lie therefore nominated Howard Kalens; Quarrey seconded, and the vote was carried by a wide margin..through the serried arches of her steepled fingers..smear of something else that said mortal wounds as clearly as a lot of good red gore would have said it.."He wouldn't believe us:' Lechat said bleakly. "It sounds like the first bluff anyone would try.."..It came in about fifteen minutes ago," the waiter said. He shook his head sadly. "Bad news. There's been a shooting down there . . . in Franklin somewhere. At least one dead---one of our soldiers, I think. It was at some place called The Two Moons.."..merely a large potato chip, he isn't able to stop screaming.
